---

Dear .....,

Thank you very much for coming here and taking the time to talk with us. The research project is part of cooperation between Vietnam and Germany. As you might already know, we are trying to learn more about the situation in your hamlet. Your knowledge and experience can help us to understand and find ways how to improve the circumstances for the people in rural areas of the Mekong Delta. The interview will take one to one and a half hours. The things you tell us will be kept confidential and will only be used for scientific purposes.

Thank you very much!

## 1. General Household Information

|                                                                                                                                                              |                                                   |         |                                                   |                   |                                                    |                                |                                                                                         |
