Dear Mr. Erb,

**Application for Research Permits for the SASSCAL Supported Research Projects in Namibia**

1. I herewith acknowledge receipt of your letter concerning above-mentioned matter. I further wish to inform you of the following concerning your request:
  - a) Your programme is hosted under the Ministry of Agriculture, Water and Forestry (MAWF) and the proposed research areas are more in line with the mandate of your host ministry. As such you do not require a research permit from our ministry to carry out your activities.
  - b) Where the proposed research involves work in protected areas, request for park entry permits must be made to our ministry under the signature of the permanent secretary of your host ministry.
  - c) For the Materials Transfer Agreements, the National Botanical Research Institute at your host ministry should be contacted for more information.
  - d) To provide our research section with the copies of research outputs/reports emanating from the SASSCAL supported projects
2. Please do not hesitate to contact Mr. /Uiseb at 061-2842529 for further enquiries or information.
3. I trust you find this in order.

Yours sincerely,
