176 T: oshiwambo speaking.

177 OS-A: oshiwambo speaking.

178 T: no.

179 I: alright. when did you move here to this house?

180 T: oshiwambo speaking.

181 OS-A: oshiwambo speaking.

182 OW-T: when did you come live at this place?

183 OW-OS-A: i came here in nineteen-ninety-four.

184 T: nineteen-ninety-four.

185 I: nineteen-ninety-four, so twenty years already, you're living here. ok. what was the reason for you to move here?

186 T: oshiwambo speaking.

187 OS-A: oshiwambo speaking.

##### 10:04 #####

188 T: oshiwambo speaking.

189 OS-A: oshiwambo speaking.

190 OW-T: why did you moved from the village to town?

191 OW-OS-A: i came here, because i was doing the business, selling meat, but at first i was staying with my uncle and later the municipality gave me land so now i'm living on my own.

192 T: ok. because she was doing that business, you know. selling in town to earn something for herself. and she was living with a uncle somewhere, there at the- somewhere that iron things, somewhere that side. so, she went to municipality and look for a place. then she got a place here. and she start living here.

193 I: and you bought this land and you build the house on it?

194 T: oshiwambo speaking.

195 OS-A: oshiwambo speaking.

196 OW-T: did you buy the house?

197 OW-OS-A: yes, we bought it and we pay for the municipality to give us toilet.

198 T: you know she bought.

199 OS-A: oshiwambo speaking.

200 T: even the toilet pay for.

##### 11:00 #####

201 I: ok. but the reason for you to move into the city was to have an option for a job to sell something and earn money?

202 T: yes, because she says she was even looking- while she was selling she was also looking for jobs.

203 I: alright, ok. is see you have a very nice garden, even a very big garden. is this your agricultural activity or is there something else? do you also grow grains, mahangu for example, maize?

204 T: oshiwambo speaking.

205 OS-A: oshiwambo speaking.

206 T: oshiwambo speaking.

207 OS-A: oshiwambo speaking.

208 T: oshiwambo speaking.

209 OS-A: oshiwambo speaking.

210 OW-T: i can see that you have a garden, what do you grow?

211 OW-OS-A: yes, but i really don't have a lot of plants, i only grow maize and beans.

##### 12:03 #####

212 T: yes, she just grow (...) beans and maize.

213 I: beans and maize, here? ok. do you also have some livestock? chicken  
for example? or goats?

214 T: oshiwambo speaking.

215 OS-A: oshiwambo speaking.

216 OW-T: do you also have chickens?

217 OW-OS-A: i use to have some chickens, but now i don't have they  
disappeared in the location.

218 T: not anymore.

219 I: not anymore? but you had some here?

220 T: she used to have but then they get lost in the location.

221 I: ok (LAUGHING). they got lost, yes. and you said, you have to spend  
your money on food. what do you normally buy, or where do you buy it and  
what is it?

222 T: oshiwambo speaking.

223 OS-A: oshiwambo speaking.

##### 13:06 #####

224 T: oshiwambo speaking.

225 OS-A: oshiwambo speaking.

226 OW-T: what type of food do you buy and from which stores?

227 OW-OS-A: i buy from shoprite, woermanblock and picknpay. i buy maize  
meal flour only and i buy mahangu from the open market.

228 T: so she buys (...) in these local stores maize meal. and then she buy  
mahangu at the open market, yes.

229 I: ok. and also shoprite or something?

230 T: yes, shoprite, woerman (inc.) she buy maize meals and those kind of  
things.

231 I: ok. and the amount of food you are growing here, is this also enough for you or do you sell something or is it just some side food which is definitely not enough?

232 T: oshiwambo speaking.

##### 14:02 #####

233 OS-A: oshiwambo speaking.

234 OW-T: is this mahangu crops enough for both of you or do you sell some?

235 OW-OS-A: no, they are enough. i just don't buy anymore from people who are selling from the homestead.

236 T: just (...) with the reason that preventing from, you know, this kind of things, for example a maize. they are- like this time they are coming from villages, people are selling around town. just for herself to prevent buying from people, she just grow herself. yes, just to eat for herself for that time.

237 I: do you also have land in the village? do you have a homestead or do you have relatives that are living in the villages?

238 T: oshiwambo speaking.

239 OS-A: oshiwambo speaking.

240 OW-T: do you have a homestead at the village?

241 OW-OS-A: no, i only have for my mom and dad.

242 T: there is only her parent's house at the village. she doesn't own a house at the village.

##### 15:06 #####

243 I: yes. and do you also receive some mahangu or some food from this village, from the homestead, from the field of your parents?

244 T: oshiwambo speaking.

245 OS-A: oshiwambo speaking.

246 OW-T: do you also receive mahangu from your parents?

247 OW-OS-A: yes, if i went there for help they help me.

248 T: yes, if she went there, look for help she can get.

249 I: ok. do you also support your parents in the village with money you earn or the pension money?

250 T: oshiwambo speaking.

251 OS-A: oshiwambo speaking.

252 OW-T: do you send your parents some money?

253 OW-OS-A: yes, i only send them money for ploughing.

254 T: ok. just when they are- for example when they are doing their agricultural activities, when she take from that- or from that pension money to help them pay the tractors or maybe oxen to plough for them and (then?). yes, then they give a little of the mahangu for her.

##### 16:05 #####

255 I: ok, good. some questions on water. which water sources do you use?

256 T: oshiwambo speaking.

257 OS-A: oshiwambo speaking.

258 T: oshiwambo speaking.

259 OS-A: oshiwambo speaking.

260 OW-T: where do you get your water from?

261 OW-OS-A: i get my water at a house somewhere that side of the road. but we used to get water from a municipality tap, but now it is closed we don't know why. and we also used to get water from a tap from a company but we used card for you to get that water so you have to pay for all that.

##### 17:00 #####

262 T: they used to have water very close here. and then there were build municipality or town council who say they build a tap there, just for the public. they never said people should pay or- just give it to the public. then they having getting water from there, it was very close. and then later on, municipality just came without informing people what happen and so. then they closed the water. and then after closing the water, then some materials, some water things they were stolen by some people, wherever

they came from. and then they completely close it now. ok, then there comes another one, for some other company, which they usually use a cart. they put a card-.

263 I: donkey cart?

264 T: no, not a donkey cart, but a card like a bob card or something. those kind of cards. you put it in with some amount- you have to recharge that card with some money. and then you put it in for you to get water. then later on that company disappeared, so that thing closed. now they are- she's apparently getting water very far from one house. from the private tap.

##### 18:18 #####

265 I: from someone else?

266 T: yes, house.

267 I: a private. ok. far away.

268 T: far away from here.

269 I: ok. how would you judge the quality of the pipe water?

270 T: oshiwambo speaking.

271 OS-A: oshiwambo speaking.

272 OW-T: is the quality of water fine?

273 OW-OS-A: yes, the quality of water is fine. is only that you have to pay for it.

274 T: ok. so the quality is ok. just that they are paying- have to pay for that.

275 I: when there is a flood, is there some surface water around here?

276 T: oshiwambo speaking.

277 OS-A: oshiwambo speaking.

278 OW-T: do you get water from somewhere here when there is flood?

279 OW-OS-A: yes, water used to be everywhere here. some of the people move out of their houses, like us now we use to block the water with this

big sacks of sand for it not to get in our houses.

##### 19:24 #####

280 T: yes, when it's flooded used to flood even up to the house. that's why they put these things. these sacks of sand. and they digged some whole that side of the corner, there, of the yard. and they open the place, this one, because now the water can not reach here. it will go in that side in the whole. now, because there is flooded, they use this one. goes through this, then they go to the (inc.).

281 I: do you use this water in any case? in any kind?

##### 20:01 #####

282 T: oshiwambo speaking.

283 OS-A: oshiwambo speaking.

284 OW-T: do you use that flood water?

285 OW-OS-A: no, we don't use them.

286 T: they don't use them. they just passing through them. but they don't use them for anything.

287 I: but it's some kind of irrigation because the water is standing there. is it a good thing or is it a bad thing?

288 T: oshiwambo speaking.

289 OS-A: oshiwambo speaking.

290 T: oshiwambo speaking.

291 OS-A: oshiwambo speaking.

292 OW-T: do you think now your crops are now getting enough water?

293 OW-OS-A: no, it's not good for them to receive a lot of water so they will die.

294 T: because, maize- this kind of garden doesn't require water standing on the ground. it doesn't require them to be under water for that long. so they are not good. they are too bad, because they just die. yes, the garden will just die.

##### 21:06 #####

295 I: alright. any kind of hand-dug wells somewhere?

296 T: oshiwambo speaking.

297 OS-A: oshiwambo speaking.

298 OW-T: do you have a pan somewhere?

299 OW-OS-A: no, we only use tap water.

300 T: they just use tap water.

301 I: just use tap water. sometimes bottled water?

302 T: oshiwambo speaking.

303 OS-A: oshiwambo speaking.

304 OW-T: do you buy bottle water?

305 OW-OS-A: yes, i do but only sometimes when i have enough money.

306 T: so, she went for a shopping for example she can buy it.

307 I: do you do this often, or is this very extraordinary event?

308 T: oshiwambo speaking.

309 OS-A: oshiwambo speaking.

310 T: only if she have- maybe get enough change.

311 I: ok.

312 OS-B: oshiwambo speaking.

##### 22:00 #####

313 OS-A: oshiwambo speaking.

### baby crying ###

314 OS-B: oshiwambo speaking.

315 OS-A: oshiwambo speaking.

316 I: do you wanna hold it?

317 T: yes, it's ok.

318 I: yes, ok. ok. and the quality of the surface water, how is that?

319 T: oshiwambo speaking.

320 OS-A: oshiwambo speaking.

321 OW-T: how do you think the quality of water from the flood?

322 OW-OS-A: it's very bad because that water came from a long way and it passes through lot of different places.

323 T: they are very bad, very bad and dirty, because they come all the way from the- just location where it's very dirty and everybody is (...) shitting everywhere, you know.

324 I: ok. for what activities do you need water at your house?

325 T: oshiwambo speaking.

326 OS-A: oshiwambo speaking.

327 T: oshiwambo speaking.

328 OS-A: oshiwambo speaking.

329 OW-T: what do you use that water from the tap at home?

330 OW-OS-A: we only use it for cooking, laundry and personal hygiene.

##### 23:01 #####

331 T: yes. just basic home- house works. drinking, cooking. laundry and (...) personal hygiene.

332 I: do you (...) use sometimes water for cleaning chairs, for cleaning the floor for example?

333 T: oshiwambo speaking.

334 OS-A: oshiwambo speaking.

335 OW-T: do you also use it to clean the house or chairs?

336 OW-OS-A: yes.

337 T: yes.

338 I: and dishes, of course. do you also use water for- to prevent some dust?  
to put it on the ground, for example?

339 T: oshiwambo speaking.

340 OS-A: oshiwambo speaking.

341 OW-T: do you also spite water on the floor to clean dust away?

342 OW-OS-A: no, i only clean very well.

343 T: no.

344 I: no?

345 T: no.

346 I: alright. and how much water do you use per day?

##### 24:03 #####

347 T: oshiwambo speaking.

348 OS-A: oshiwambo speaking.

349 T: oshiwambo speaking.

350 OS-A: oshiwambo speaking.

351 OW-T: how many liters of water do you use per day?

352 OW-OS-A: i don't really use a lot of water because i can't carry heavy  
things, because of my high blood pressure. so i only use two five liters a  
day but if my son is here, he go get three twenty-five liters.

353 T: ok. she's having her blood pressure so she can't carry heavy things. for her she just go with five liters and a two liter.

354 I: one five liter and one two liter?

355 T: yes, then she go get there she come home. unless when the son is there, the son can get this big, big ones, with the wheel barrel.

356 I: with the wheel-?

357 T: barrel?

358 I: barrel? how much is that?

##### 25:01 #####

359 T: oshiwambo speaking.

360 OS-A: oshiwambo speaking.

361 T: ok. maybe two twenty-five liter or three.

362 I: three twenty-five liter. when the son is there. and when you do laundry, how much is that?

363 T: oshiwambo speaking.

364 OS-A: oshiwambo speaking.

365 OW-T: how many liters do you need when you doing laundry?

366 OW-OS-A: i really can't tell because i just take my clothes and go do the washing where the tap is. and i dry them there.

367 T: she can't really tell how much, because she just carry her things and go at that house, wash, do laundry and then keep there to dry, come back home and then go later to collect them. because it's just at the house.

368 I: and how often do you do laundry?

369 T: oshiwambo speaking.

370 OS-A: oshiwambo speaking.

371 OW-T: how often do you do laundry in a week?

372 OW-OS-A: just maybe once or twice a week.

##### 26:02 #####

373 T: ok, can even- not really often, maybe one or two per week.

374 I: and, do you have to water your garden also in the rainy season?

375 T: oshiwambo speaking.

376 OS-A: oshiwambo speaking.

377 T: oshiwambo speaking.

378 OS-A: oshiwambo speaking.

379 OW-T: do you water your garden at rainy season?

380 OW-OS-A: yes, sometimes but now i don't because my healthiness isn't well and they died even so they don't grow anymore. so i just clean the yard and dump them there during dry season. there is no rain.

381 T: long ago, when she used to be ok. she used to be ok due (...) in healthy times- in healthy terms. she used to water them. but now she doesn't water them anymore, because she can't collect that enough water.

##### 27:01 #####

382 I: ok. so not even in the dry season, there is nothing in the garden.

383 T: no nothing, doesn't growing during the dry season.

384 I: ok, but just because of your health this is not possible.

385 T: oshiwambo speaking.

386 OS-A: oshiwambo speaking.

387 T: oshiwambo speaking.

388 OS-A: oshiwambo speaking.

389 T: ok. they just- because they just depend on the rain, so they can not grow during drought.

390 I: ok, yes. what is the most important difference between living in the  
village and living in a city?

391 T: oshiwambo speaking.

##### 28:07 #####

392 OS-A: oshiwambo speaking.

393 OW-T: what is the difference of having a house at the village and having a  
house in town?

394 OW-OS-A: at the village is better but now that i owned a land now here in  
town, i can't leave it behind so i stay here.

395 T: yes, according to her, the village is better. but because she already  
came here that long ago and she got her place, she can't leave the place  
and be at the village. so she just thinks she can stay on her place in town.

396 I: ok. does drought affect you in any kind of way here at your home?

397 T: oshiwambo speaking.

398 OS-A: oshiwambo speaking.

399 T: no.

##### 29:01 #####

400 OS-A: oshiwambo speaking.

401 T: oshiwambo speaking.

402 OS-A: oshiwambo speaking.

403 T: oshiwambo speaking.

404 OS-A: oshiwambo speaking.

405 OW-T: does drought effect you here at home?

406 OW-OS-A: yes, because at dry season, there is no rain so i can't even  
grow my mahangu.

407 T: yes. yes, she couldn't understand what i meant. but now, yes she said

yes. she get affected by drought, because if there is no rain, she can't even have that. so, that's all she (is being?) affected by drought. just in those terms of doing agricultural work.

408 I: yes, doing agricultural work. and maybe you don't get any food from the parent's fields, because they are not able to grow any mahangu probably? is that also the case?

409 T: oshiwambo speaking.

##### 30:02 #####

410 OS-A: oshiwambo speaking.

411 T: yes, they now don't get anything from the houses because they doesn't receive rain also, so now they just depend on the (...) shops.

412 I: ok. and how do floods affect your home?

413 T: oshiwambo speaking.

414 OS-A: oshiwambo speaking.

415 OW-T: how does flood effect you?

416 OW-OS-A: it effect all of us here. some moved to the tents but us we were not really effected so we didn't move to the tents.

417 T: a flood really do affect the whole location. but, people they may even be removed and in towns to the tent, to the tent inside. all the houses, but except them, they were not- they were- because somehow not that much affected. yes, that is her and his house and this one, but most of the houses were all removed and taken to the tent.

##### 31:16 #####

418 I: ok. maybe (...) yes, one very broad general question. just tell me what is a good life for you?

419 T: oshiwambo speaking.

420 OS-A: oshiwambo speaking.

421 OW-T: what is a good life for you?

422 OW-OS-A: is that person who have a job or getting a salary from the

government, so you can help needs.

424 I: alright. ok, fine. do you think there is anything more you want to tell me about water situation here in the city that i did not ask for now?

425 T: oshiwambo speaking.

426 OS-A: oshiwambo speaking.

427 OW-T: is there something that you need to ask about something related to water or something?

428 OW-OS-A: no, you asked everything already.

##### 33:03 #####

429 T: ok. in fact, apparently you have almost asked (...) all the thing that's maybe she supposed to tell you. but you have already asked for it, so.

430 I: ok, this is a good information for me. thank you very much meme. ok.

431 T: oshiwambo speaking.

432 OS-A: oshiwambo speaking.
